

HOSPITALS AND COMMUNITY HEALTH SYSTEMS

Comprehensive EHR, PM, RCM and Medical Billing Services

Azalea Health's integrated electronic health record (EHR), practice management (PM), revenue cycle management (RCM) and medical billing services are simple to implement and easy to use. Azalea offers a true cloud-based solution, eliminating worries about downloads or maintaining servers and software. Azalea lets physicians concentrate on care rather than technology.

In addition to Azalea's highly scalable, certified EHR, the platform includes fully integrated practice management, patient portal, personal health records and telehealth functionality along with the AzaleaM™ mobile platform that's integrated with the Apple® Healthkit, and revenue cycle performance services.

Azalea Health's powerful, yet user-friendly technology delivers functionality and workflow that enhances performance and streamlines clinical, financial and administrative operations. Just ask our customers – Azalea has a customer retention rate of 99 percent.

Best of all, the certified Azalea® EHR and PM are FREE with Azalea® RCM medical billing services.
