

AZALEA® RCM SERVICES

YOUR REVENUE CYCLE PERFORMANCE PARTNER

Revenue Cycle Management, Medical Billing and Accounts Receivable

With Azalea, physicians and other care providers can focus on their primary mission of providing quality care. Azalea provides turnkey revenue cycle management (RCM), medical billing and accounts receivable (A/R) services that ensure you are reimbursed quickly and fully for your services.

Azalea goes beyond just processing data; we analyze, manage and optimize your revenue cycle to truly improve your financial performance. Our certified RCM experts, based in the U.S., are dedicated to helping you increase your claims and billing efficiency while reducing denials.

By the numbers:

- Azalea consistently performs 15-20% above the MGMA industry standard for average days outstanding of A/R
- Azalea's claims are submitted 5-7 days faster than the industry average
- 99.4% of claims submitted by Azalea practices are successfully adjudicated on the first submission

Best of all, when you choose Azalea® RCM medical billing services, the certified Azalea® EHR platform is FREE.

Why Choose Azalea RCM Services

- **Seamless integration** between your front and back office yields greater efficiency.
- **Comprehensive A/R management** includes electronic claims submission, reimbursement accounting, patient invoicing, collections, detailed billing reports, physician contracting and credentialing.
- **Optimize revenue** by managing the aging and outstanding A/R report to reduce A/R days outstanding.
- **Increase collections** through more efficient A/R management.
- **Reduce denials** with better claims, fewer errors and faster response.
- **Lower overhead** by significantly reducing the need for office space, billing-related technology, staffing and storage space for paper EOBs.
- **Retain control and gain insights** with detailed billing reports that allow you to make more informed decisions and optimize revenue.
